2700K	3000K	3500K	4100K	5000K	6500K
▲ WARM			COOL ▲		
WARM WHITE/SOFT WHITE		COOL WHITE/NATURAL WHITE		NATURAL/DAYLIGHT	

- LEDs are available in a wide range of colors to suit personal preferences.
- Light color, or appearance, matches a temperature on the Kelvin scale (K).
- Lower K means warmer, yellowish light, while higher K means cooler, bluer light.

Always look for the Energy Star label when choosing your LED bulbs.
